- other methods related to helping grow and maintain your membership.

You may cut and paste copy in the space below or use a separate page if necessary; please limit your explanation to 500 words or less in 12-point type.

✘ Best Overall Affiliate Meeting Award

Did your Affiliate hold an outstanding self-sustainable (*not sponsored/co-sponsored by IAFP*) food protection meeting which you consider 'over and above' those normally held? If so, provide the following details, if applicable, on what led to a highly successful meeting:

- Type of meeting and the value it brought to Affiliate Members/attendees (does not need to be your Annual Meeting);

The 7th International Food Safety Congress

The 7th International Food Safety Congress has been realised with great success alongside your valuable support, with the participation of over 400 participants including guests from 18 different countries. The Congress has established a very effective information sharing platform where we could catch up with, discuss and share information on recent developments of food safety at global and local level.

- Mission statement for meeting (if relevant);

As the Turkish Food Safety Association, we have been organizing Food Safety Congresses since 2009 and the 6th Food Safety Congress was held on 3-4 November 2022 in Istanbul, Turkey. The 7th Food Safety Congress was organized in collaboration with the International Association for Food Protection (IAFP). 35 professional organizations were involved in the organisation of the Congress as Congress stakeholders.

The Food Safety Congress is the only congress in our geography covering Turkey, Eastern Europe (Balkans), Ex-soviet countries and the Middle East specifically dedicated to the issue of food safety. The primary mission of the Food Safety Congresses is to raise awareness on the food safety issue and to create a common ground for those who are dealing with food safety from different groups and professions like food scientists & technologists, agricultural engineers, veterinarians, medical doctors. The Food Safety Congresses also aim to bring new concepts and novel approaches related to food safety to the agenda of decision-makers, scientists and food/health professionals.

Keeping in mind the fact that food safety has strategic importance on the protection of the consumer, on the development of the agro-food sector and on the regional/global economy. Also, food safety is a dynamic concept. Therefore, exchanging knowledge and information between all stakeholders of food safety is of critical importance in establishing a well-working food safety system. The 6th Food Safety Congress created an environment to set up a common sense among food safety professionals from different professions and different

institutions both public and private. The Congress Statement which included recommendations for safer food and better health in the future also was released.
