

Lessons Learned When Employees Work Sick

HOSTED BY

Webinar Housekeeping

- It is important to note that all opinions and statements are those of the individual making the presentation and not necessarily the opinion or view of IAFP.
- All attendees are muted. Questions should be submitted to the presenters during the presentation via the Questions section at the right of the screen. Questions will be answered at the end of the presentations.
- This webinar is being recorded and will be available for access by IAFP members at within one week.

Today's Webinar

This webinar will address the critical issue of employees working while sick in the retail and food service industry. Our expert panel will analyze the multifaceted impacts of employees working sick on businesses. Our aim is to shed light on the underlying reasons employees choose to work while unwell, explore best practices for effectively managing employee sick calls, and delve into crucial steps for a plan to address ill employees. Our discussion will highlight the legal risks associated with permitting sick employees to work and draw insights from our experts on lessons learned during their experiences with ill employees. By examining these critical aspects from clinical, operational, regulatory, and legal perspectives, attendees will gain actionable strategies to mitigate risks and foster a healthier, more resilient workplace environment while building a food safety culture that entrusts employees with responsibility for not working when sick.

Learning Objectives

- 1. Understand the underlying reasons employees choose to work while unwell
- 2. Learn best practices for effectively managing employee sick calls
- 3. Understand the crucial steps that are part of a plan to address ill employees

Today's Speakers

MODERATORS

Paula Herald Steritech Co-Moderator

Roslyn Stone Zero Hour Health Co-Moderator

Kerry Bridges Chipotle

PRESENTERS

Eric Martin Texas Roadhouse

Shawn K. Stevens Food Industry Counsel, LLC

Introduction

CDC 5 Top Risk Factors for Foodborne Illness

- Improper hot/cold holding temperatures of potentially hazardous foods.
- Improper cooking temperatures.
- Contaminated utensils and equipment.
- Poor employee health and hygiene.
- Food from unsafe sources

Introduction

Food Code Requirements

- FDA Food Code: 2-201.11 Responsibility of Permit Holder, Person in Charge, and Conditional Employees.
- Employees to report foodborne illness symptoms to managers
- May be restricted or excluded from working

Introduction

Foodborne outbreaks caused by sick food handlers

- Sick food service workers responsible for 41% of foodborne illness outbreaks
- Vomiting at work is a very common vector for infecting others (both co-workers and guests).
- Hepatitis A-infected cook caused 49 people to become ill and 4 died

Prevention Measures

Recommended Prevention Measures

Frequent handwashing

Rinse fruits & vegetables thoroughly

Clean & Disinfect surfaces

• Especially after vomit/diarrhea occurrence

Prohibit sick people from preparing food

Chipotle Prevention Measures

Frequent handwashing

— Includes Top-of-the-Hour & Task-Change handwashing

Rinse fruits & vegetables thoroughly

- Use of Victory Wash
- Blanching jalapenos

Clean & Disinfect surfaces

- Purell / Pure Bio
- RGF units in restrooms, air ducts. & ice machines
- Noro Prevention Protocols (NPP)
- Vomit Cleanup Kits
- Ozone Generators

Illness Policy

- Wellness Checks (CCP1)
- Paid Sick Leave for all employees at 1^{st} day of service
- Working Healthy is 1st in Food Safety 7
- SSR Monitoring & Emergency Noro Protocol
- Nurses
- Noro-related questions on **EcoSure** audits & all internal Food Safety forms

Restaurant Materials

Food Safety Seven

Employee Wellness Checks

All Restaurant employees are working healthy.

Enforced by verbal & visual Wellness Check as well as documentation in CCP1 Wellness Check Book ("The Red Book").

Working healthy means an employee is free

of: lausea

- Sore throat w/ fever
- Infected Wounds
- Diarrhea
- Jaundice (yellowing of skin/eyes)

- Open Sores
- Vomiting
- Discharge from eyes/nose/mouth
- Boils
- Fever

The most important step we can take to ensure the safety of both our guests and employees

Chipotle has **Zero Tolerance** for violation of our Illness Policy.

Violation will result in termination of Food Safety Leader (FSL) and/or the crew member in question.

ESCALATION PROTOCOL

Level 2 – Noro Prevention Protocol

Level 1 - Exclusion

Escalation System

Reported to RFSQA Team

Clinical Team

Reported to RFSQA Team

Employee Illness Reported at Restaurant

Alleged Customer Illness

Sick calls - what happens?

- History paper oriented checks, no "one" standard, no transparency
- Using technology to gather information Covid over 2 million surveys
- Focus on required reporting, but also what is different in how you feel
- Involve Management, but do not allow them to overrule they are not medical professionals

What do you do with info?

- Decide what the tipping point is for additional action
- 3 or more reports in a seven day period required for everyone in store to do symptom surveys for 2 days
- Automated emails
- Health Department involvement
- Case study when things do not go as planned

Legal Consequences

Civil Exposure

- Alleged claims
- Threatened claims
- Meritorious claims
- Informal settlement discussions (with or without lawyers)
- Formal and structured mediation (with lawyers)
- Litigation and Trial

Legal Consequences

Regulatory Exposure

- State and Local governments
- Food and Drug Administration (FDA)
- Public Health Orders (mandating closure)
- Potential withdrawal of licenses or registration

Legal Consequences

Possible Criminal Exposure

- Regulatory inspections = can trigger referral to DOJ
- DOJ investigation Grand Jury Subpoenas
- Elements:
 - 1. Awareness of a condition that could make someone sick;
 - 2. Being in a position to fix the condition; and
 - 3. Failing to do so.
- Penalties (per count):
 - 1 year in prison
 - \$250,000 fine

Wrap Up

Ensuring employees don't work sick is the single most effective way to prevent the spread of illness to co-workers and guests.

- Knowing that there is illness is the first step to stopping noro in its track or breaking an illness cycle.
- Just one sick employee working a short time can infects hundreds.
- Consistently applied illness policies are key to preventing employees from working sick or returning too soon.
